

**General Information:**

Fostonic® 80WP is a systemic fungicide for use as a foliar spray to control Phytophthora in apples, ornamentals and non-bearing kiwifruit, pomefruit, avocados and citrus.

Fostonic® 80WP should be used as a preventative treatment, and is both foliage and root absorbed.

**IT IS AN OFFENCE FOR USERS OF THIS PRODUCT TO CAUSE RESIDUES EXCEEDING THE RELEVANT MRL IN THE FOOD NOTICE: MAXIMUM RESIDUE LEVELS FOR AGRICULTURAL COMPOUNDS.**

**DIRECTIONS FOR USE:**

Foliar Sprays

Crop	Rate/100 litres	Timing	Withholding Period	Comments
Ornamentals Non-bearing: - apples - avocados - kiwifruit - citrus	250g-500g	Apply at monthly intervals during periods of high disease pressure in the spring and autumn	—	Use the lower rate as a preventative treatment, and the higher rate if plants are already showing signs of Phytophthora infection.
Apples	250g	Apply 2 sprays at 28 day intervals in the spring. A further 1-2 sprays should be applied at monthly intervals after harvest.	100 days	Spring application should not be applied until plants have sufficient foliage cover to absorb the chemical. Spring treatments protect plants over the late spring - early summer period.  Autumn applications should be made after harvest prior to leaf fall. These provide protection to plants over the autumn, winter and early spring period.

**Mixing:**

Preparation of a mixing tank:

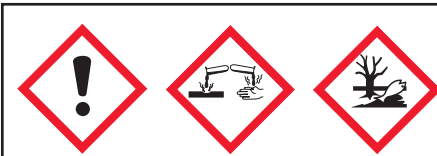

In a small bucket, slowly add the desired quantity of Fostonic® 80WP to 10L of water until well mixed (free from agglomerates). Add this premix to the remaining volume of water in the sprayer and start spraying after agitation.

**Application:**

Fostonic® 80WP is recommended as a high volume foliar spray applied to the point of run-off. Thorough coverage is essential.

**Compatibility:**

Do not mix with nitrogen based foliar fertilisers, copper sprays or oil based sprays. Check compatibility with other products prior to use.

**WARNING:** This product is corrosive and may cause severe eye damage. May be harmful if swallowed, inhaled or absorbed through the skin. When handling, wear suitable gloves, goggles, overalls and footwear.

**PRECAUTIONS:** Store in original container, tightly closed, away from foodstuffs. When mixing or applying wear waterproof gloves. Remove protective clothing and wash hands and face before meals and after work. Avoid contact with skin or eyes and inhalation of spray mist. Avoid contamination of any water supply with chemical or empty container.

**VERY ECOTOXIC TO AQUATIC LIFE:**

Avoid contamination of any water supply with product or empty container.

**DISPOSAL OF CONTAINERS:** Dispose of empty packaging safely. Burn, if circumstances, especially wind direction permit, otherwise bury in landfill.

**FIRST AID:**

**Eye contamination:** If product or spray enters eyes, wash out immediately with running water for at least 15 minutes. For advice contact the National Poisons Centre on 0800 764 766, or a doctor immediately. If spilt on the skin, remove contaminated clothing and wash affected areas of skin. **DO NOT SCRUB THE SKIN.** If swallowed **DO NOT induce vomiting** - contact the National Poisons Centre on 0800 764 766, or a doctor immediately.

**SPILLS:** Collect and seal in plastic lined drums for disposal in an authorised landfill. Wash the spill zone down with excess water avoiding contamination of any water body.

**Notice to Buyer:** Careful tests have proved that the product is suitable for the recommended purposes when used in accordance with our instructions. However, since storage and use of product are beyond our control, we do not therefore accept any liability for damage or loss of efficacy which may result from the use of this product, whether used in accordance with the directions or not. We are liable for a consistent quality of the product, but the risk of its storage and use is not borne by us.

**WARNING**  
KEEP OUT OF REACH OF CHILDREN
