

**GENERAL INFORMATION:**

Evito is an effective fungicide for the control of primary and secondary powdery mildew on apples, field grown pumpkins and winter squash. Evito has contact, translaminar and vapour phase modes of action, all of which contribute to its eradicator and protectant properties. Evito is specific in its action against powdery mildews.

**IT IS AN OFFENCE TO USE THIS PRODUCT ON ANIMALS.****DIRECTIONS FOR USE:**

CROP	DISEASE	REMARKS
Apples – all varieties	Powdery mildew	Use 40-50mL/100 litres of water as a dilute spray or adjust accordingly for concentrate spraying. Use the higher rate when powdery mildew infection is moderate to high. Commence at tight cluster and continue at 10-14 day intervals until new leaf growth ceases. Use the closer interval during rainy weather or during severe powdery mildew infection periods. Do not apply more than three applications in one season.
Field grown pumpkins and winter squash	Powdery mildew	Use 800mL – 1 litre/ha at 10 to 14 day intervals. Use the higher rate and/or closer interval during periods of intense disease pressure. Use as a preventative application and ensure uniform coverage. Do not apply more than three applications in one season.

**IT IS AN OFFENCE FOR USERS OF THIS PRODUCT TO CAUSE RESIDUES EXCEEDING THE RELEVANT MRL IN THE FOOD NOTICE: MAXIMUM RESIDUE LEVELS FOR AGRICULTURAL COMPOUNDS.**

**Withholding period:** Apples, field grown pumpkins and winter squash – 14 days. For apples grown for export consult your exporter for withholding period information.

**Application:** May be applied through all conventional orchard and boom spraying equipment. Maintain agitation during mixing and spray application.

**Compatibility:** Evito may be tankmixed with most commonly used insecticides, fungicides and calcium nitrate. Do not mix with very alkaline materials.

**Rainfall:** Rain within 6 hours following application may reduce effectiveness.

**IPM:** Evito is compatible with integrated pest management programmes based on natural predators and parasites.

**WARNING**  
Keep out of reach of children

**Evito**<sup>®</sup>

For the control of powdery mildew on apples, field grown pumpkins and winter squash.

Active Ingredient: Contains 250g/L bupirimate in the form of an oil-in-water emulsion.

GROUP 8 FUNGICIDE

Registered pursuant to the ACVM Act 1997 No. P8300  
See [www.foodsafety.govt.nz](http://www.foodsafety.govt.nz) for registration conditions

In a transport emergency dial 111, Police or Fire Brigade.

Net Contents: 5 Litres

**READ LABEL BEFORE USE.**

EPA Approval Code: HSR100490. See [www.epa.govt.nz](http://www.epa.govt.nz) for controls.  
HSNO Classifications: 6.1E (Oral, Inhalation), 6.3B, 6.4A, 6.5B, 6.9B, 9.1A  
Qualified Person/Contractor: Required.

**WARNING:** May be harmful if swallowed. May be harmful if inhaled. Causes mild skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. May cause damage to organs through prolonged or repeated exposure.

**PRECAUTIONS:** Keep out of reach of children. Read label before use. Do not breathe fumes, vapours or spray. Avoid skin and eye contact. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective clothing. Collect Spillage. Apply this product carefully. Ensure compliance with relevant regional air management plans.

**HANDLING PRECAUTIONS: EQUIPMENT:** Apply using calibrated and maintained equipment in accordance with the NZ Standard for the Management of Agrichemicals (NZS8409).

**STORAGE:** Store locked up in the original, unopened container in a cool, dry place, out of direct sunlight and away from stockfeed or foodstuffs. As a Class 9 Substance with Ecotoxicity Classifications, storage must be carried out in such a manner as to prevent contamination of waterways. It is recommended that The New Zealand Standard for the Management of Agrichemicals (NZS8409) is followed. See Safety Data Sheet for further information.

**EVITO SHALL NOT BE APPLIED ONTO OR INTO WATER.**

**EVITO IS TO BE APPLIED VIA GROUND BASED APPLICATION SYSTEMS ONLY.**

**VERY TOXIC TO AQUATIC ORGANISMS.** A strategy to minimise spray drift should be employed at all times when applying spray near aquatic environments.

**DISPOSAL OF CONTAINER:** Triple rinse container and add residue to spray tank. Return clean, empty container to an AgRecovery site for disposal. Avoid contamination of any water supply with chemical or empty container.

**FIRST AID:** If medical advice is needed, have product container or label at hand. Call a POISON CENTER or doctor/physician if you feel unwell. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention. IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**SPILLS:** Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste containers. Wash area with water and absorb with further inert material. Dispose of waste safely (such as to a suitable landfill).

**Batch No. and Manufacturing Date:** See on packaging
