Net Contents: 5 kg

HSNO Classifications: 6.1B (I), 6.1D (O), 6.1D (D), 6.3B, 9.1A, 9.2A, 9.3C

Approved under the HSNO Act 1996, HSR008044. See www.epa.govt.nz for controls.

THIS PRODUCT MUST BE UNDER THE CARE OF AN APPROVED HANDLER AT ALL TIMES.

GENERAL TRACKING REQUIREMENTS APPLY.

This substance is fatal if inhaled and is harmful if swallowed or absorbed through the skin. Causes mild skin irritation.

PRECAUTIONS: Store in original container, tightly closed, away from foodstuffs in a cool dry, secured area. Avoid contact with skin and eyes, and inhalation of spray mist. When mixing or applying wear appropriate clothing including impervious, elbow-length gloves and eye protection. Wear suitable respiratory protection. Wash hands and exposed skin before meals and after work. Wash contaminated clothing before reuse. Avoid contamination of any water supply with chemical or empty container.

Apply this product carefully. Spray drift may cause serious damage to desirable plants. Ensure compliance with relevant regional air management plans.

CONTROLS: This substance must not be applied into or onto water. This substance shall be applied via ground-based methods only. A buffer zone of 15m between the application area and any downwind area containing non-target plants shall be observed when applying this substance.

EQUIPMENT: Apply using accurately calibrated and maintained equipment in accordance with the NZ Standard for the Management of Agrichemicals (NZS8409). Spray equipment should be thoroughly cleaned after use.

SAFETY DATA SHEET (SDS): A SDS is available from Adria Crop Protection by calling 09 412 9817 or from our website: www.adria.nz

VERY TOXIC TO THE SOIL ENVIRONMENT. HARMFUL TO TERRESTRIAL VERTEBRATES.

VERY TOXIC TO AQUATIC LIFE WITH LONG-LASTING EFFECTS. A strategy to minimise spray drift should be employed at all times when applying spray near aquatic environments.

DISPOSAL OF CONTAINER: Triple rinse packaging and add residue to spray tank. Dispose of this product only by using according to the label or at an approved landfill, according to local Council regulations. Do NOT burn product. Avoid contamination of any water supply with chemical or empty container.

FIRST AID: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTRE or a doctor/physician. **If swallowed** do NOT induce vomiting. For advice, contact the National Poisons Centre on 0800 POISON (0800 764766) or a doctor immediately. **If in eyes:** Rinse immediately with plenty of water. Obtain medical attention if pain, blinking, tears or redness persist. **Skin contact:** Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. Seek medical attention if rash or irritation develops.

SPILLS: Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste containers. Wash area with water and absorb with further inert material. Dispose of waste safely (such as to a suitable landfill).

Batch No. and Manufacturing Date: See on packaging

Registered to and Distributed by: Adria New Zealand Limited. P.O. Box 535, 407 State Highway 16 Kumeu, Auckland. Ph: 09 412 9817. Fax: 09 412 9807. www.adria.nz

Notice to Buyer: Careful tests have proved that the product is suitable for the recommended purposes when used in accordance with our instructions. However, since storage and use of product are beyond our control, we do not therefore accept any liability for damage or loss of efficacy which may result from the use of this product, whether used in accordance with the directions or not. We are liable for a consistent quality of the product, but the risk of its storage and use is not borne by us.

BEWARE: Apply this product carefully. Spray drift may cause serious damage to other desirable plants. A strategy to minimize spray drift should be employed at all times when applying spray near aquatic environments.

RECORD KEEPING: Records of use must be kept under certain circumstances – see The New Zealand Standard for the Management of Agrichemicals (NZS 8409) for details.

IT IS AN OFFENCE for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

Mitron 70WG should be applied post emergence in beet crops. It has some residual activity.

DIRECTIONS FOR USE - BEET:

Crop	Use rate	Critical Comments
Beet:	6.0 kg (8.75 litre measure)/hectare	Apply early post emergence when weeds are small and the crop has fully expanded cotyledons but before the second true leaf stage. Use 200-300 litres of water per hectare as a fine misting spray.
Red		
Fodder		
Sugar	1.0 litre/hectare of Multi-film™ Extra.	
Mangolds		

WEED SPECTRUM:

Susceptible: Amaranthus spp., Buttercups (seedling), Chickweed, Docks (seedling), Fat hen, Galinsoga, Groundsel, Hawksbeard, Henbit, Matricaria spp. (Stinking mayweed and Chamomiles), Nettles, Pennycress, Annual poa, Wild portulaca, Scotch thistle (seedling), Shepherd's purse, Sow thistle, Speedwells, Spurrey, Twin cress, White clover, Yarrow (seedling).

Moderately Susceptible: Field pansy, Fumitory, Hedge mustard, Black nightshade, Scarlet pimpernel, Thorn apple, Wireweed.

Non-susceptible: Californian thistle, Cleavers, Cornbind, Wild oats and most grasses.

RESISTANT WEEDS WARNING: Mitron 70WG is a **GROUP C1 HERBICIDE** of the triazinone herbicide group. Naturally occurring weed biotypes resistant to triazinones can become more prevalent after many years of continuous use. To delay the onset of, or control resistant weeds, use in rotation with herbicides of different mode of action. Since the occurrence of resistant weeds is difficult to detect prior to use Adria New Zealand Ltd accepts no liability for losses that may result from the failure of this product to control resistant weeds.
