**Net Contents: 10 litres**

**HSNO CLASSIFICATIONS:** 6.1D, 8.2B, 8.3A, 9.1D, 9.3B

**EPA Approval Code:** HSR002491

**WARNING:** This material may be harmful if swallowed, inhaled or absorbed through the skin.

**STORAGE:** Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from foodstuffs. Storage must be generally in accordance with the NZ Standard for the Management of Agrichemicals (NZS8409).

**PRECAUTIONS:** Keep out of reach of children. Wear protective clothing such as impervious gloves, waterproof hat, coat and trousers when using. Avoid contact with skin or eyes and inhalation of spray mist. Wash hands and exposed skin after use and before meals. When mixing or applying wear waterproof gloves.

**CONTAINER DISPOSAL:** Triple rinse container and add residue to spray tank. Return empty container to an AgRecovery collection point for disposal.

**TOXIC TO AQUATIC ORGANISMS.** Avoid contamination of any water supply with chemical or empty container.

**FIRST AID:** If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre on 0800 POISON (0800 764766) or a doctor immediately. **Eye contamination:** If product or spray enters eyes, wash out immediately and continue rinsing with clean water for at least 15 minutes. **Skin contact:** After contact with skin, wash immediately with soap and water.

**SPILLS:** Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste containers. Wash area with water and absorb with further inert material. Dispose of waste safely, according to local Council regulations.

**Notice to Buyer:** Careful tests have proved that the product is suitable for the recommended purposes when used in accordance with our instructions. However, since storage and use of product are beyond our control, we do not therefore accept any liability for damage or loss of efficacy which may result from the use of this product, whether used in accordance with the directions or not. We are liable for a consistent quality of the product, but the risk of its storage and use is not borne by us.

**Registered to and Distributed by:** Adria New Zealand Limited. P.O. Box 535, 407 State Highway 16 Kumeu, Auckland.

**Batch number and manufacturing date:** See on packaging.

**PRODUCT INFORMATION:** Opti-Cover® GT is an adjuvant which enhances the activity and penetration of herbicides, plant growth regulators, dessicants, defoliants, foliar nutrients and systemic fungicides and insecticides. It is also a buffering agent which lowers the pH of spray mixtures. Opti-Cover® GT also improves the deposition of pesticides and retards drift.

**DO NOT USE ON ANY ORNAMENTAL CROP INCLUDING THOSE GROWN FOR CUT FLOWERS, FOLIAGE AND NURSERY PLANTS.**

**DIRECTIONS FOR USE:** Opti-Cover® GT may be used on a wide range of tree fruits, vines, cereals and vegetables. Some pesticides have stated adjuvant use rates. In all cases, follow the pesticide manufacturer's instructions and use the rate specified. Do not add Opti-Cover® GT at a rate that exceeds 5% of the total spray volume.

**RECOMMENDATIONS:**

**General Use: Fungicides, Insecticides, Plant Growth Regulators, Foliar Nutrients:**

- Use 65-500mls / 100 litres of spray mixture. Use high rate for improved uptake of systemic pesticides.
- Use 250-500mls / 100 litres with the lowest recommended rate of chlormequat on wheat and oats.

**Herbicides, Defoliants, Dessicants:**

- Use 125-500mls / 100 litres of spray mixture when used as a surfactant/penetrant.

**Drift Retardant:**

- Use 250-500mls / 100 litres of spray mixture.

**Acidifying Agent:**

- Highly alkaline water (pH 8 or higher): 60-120mls / 100 litres water.
- Mildly alkaline/acid water (pH 6.5-8): 30-60mls / 100 litres water.

**Compatibility:** Opti-Cover® GT is an acidifier and may not be chemically or physically compatible with alkaline spray materials. **Do not** use Opti-Cover® GT with copper fungicides as damage to the crop may occur.
